

REPORT: Hillary Clinton & Barack Obama's TREASON Against The United States
Posted on by DC Whispers

Treason, once a word that was the darling of the anti-Trump crowd is now being leveled far more accurately at Hillary Clinton. She sold us out to the Russians – 20% of American uranium holdings in exchange for a \$500,000 per hour speech for Bill Clinton and hundreds of millions poured into the Clinton Machine's globalist foundation – much of which in this particular case was funneled through the Canadian branch so as to avoid U.S. financial disclosures when Hillary ran for POTUS for the second time. And everyone knew it. Many others, including the Obama White House, were likely in on it.

Check out the following from the The New York Post:

[Why doesn't Hillary's 'dossier' trick count as treason?](#)

*We now know Hillary Clinton and the Democratic National Committee **paid as much as \$9 million for the discredited dossier on Trump.***

***According to the Washington Post**, a lawyer named Marc Elias, who represented both the 2016 Clinton campaign and the Democratic National Committee, had hired Fusion GPS, a DC firm working on behalf of the Russian government to soften sanctions at the time, to provide opposition research for them. The firm then hired a former British spy named Christopher Steele who reportedly purchased salacious rumors about Trump from the Russians.*

*Now, you might expect that the scandalous revelation of a political campaign using opposition research that was partially obtained from a hostile foreign power during a national election would ignite shrieks of "collusion" from all patriotic citizens. After all, only last summer, when it was reported that **Donald Trump Jr. met with a Kremlin-linked Russian lawyer** who claimed to be in possession of damaging information about Clinton, there was widespread condemnation.*

Finally, we were told, a smoking gun tied the Trump campaign to Vladimir Putin. Former Democratic vice presidential candidate Tim Kaine went as far as to suggest that the independent counsel begin investigating treason.

Treason! Trump Jr. didn't even pay for or accept research.

The Clinton crew, on the other hand, did. They didn't openly push the contents of the dossier — probably because they knew it was mostly fiction. Instead, Fusion GPS leaked it to their friends in the media.

The Obama administration reportedly relied on the dossier to bolster its spying on US citizens. We know of at least one case where the information was used to justify a FISA warrant on a Trump adviser. And let's not forget that Steele had reached an agreement to be compensated for his efforts by the FBI.

Let's break it all down in very simple terms:

**Team Clinton pays for a false Trump dossier and then gives it over to their influential supporters in the media.

**Media dutifully spreads the lies of the dossier – the true act of “Fake News” in the 2016 campaign.

**FBI also pays for the fake dossier and then uses it as the excuse for the illegal surveillance of the Trump campaign.

**The Obama White House then uses the illegal FBI surveillance program to funnel yet more information to Establishment Congressional leaders and the media in order to set up an anti-Trump Deep State apparatus in the weeks prior to Election Day. This is then used to attack Trump 24/7 following his victory over Hillary Clinton – a victory that left the Deep State and the entirety of the Establishment Media and political machines stunned – and frightened.

**The backdrop behind all of the above is how the Clintons monetized the U.S. State Department that culminated in such things as the Uranium One deal which gave 20% of America's uranium holdings to Vladimir Putin in exchange for millions of dollars going to the Clintons and friends of the Clintons. This happened directly under the Obama White House's watch which likely means other high ranking Obama officials benefited as well.

During the eight years of Barack Obama American security was repeatedly sold out to the highest bidder. This happened with Russia, with Iran, and even with terrorist dealings such as the infamous “Taliban Five” exchange. If that isn't treason then what is?
